railings
**Beautiful. Durable.
Worry-Free.**

*code-approved railing

Stylish ways to accent your space.

When building your outdoor space, consider Royal Crown Limited railings and columns to add that special, decorative touch. You'll find that our products not only offer great style, but outstanding quality and design flexibility as well.

Unparalleled Durability

Vinyl railing systems from Royal Crown Limited offer exceptional durability to last for decades. With 12-gauge galvanized steel or aluminum reinforcements, our railings are built to withstand plenty of weight. Because they're made from 100% pure virgin vinyl, they'll stand up to insects and harsh weather conditions – from summer's intense heat to winter's severe cold – without cracking or breaking. In addition, there are no exposed fasteners ... so rusting and weakening of railing joints won't be a problem.

Unending Beauty

In contrast to the frequent maintenance required by wooden decks and railings, our vinyl systems give homeowners true simplicity and unending beauty. Cleaning our railings is a breeze; just spray with a hose to whisk away leaves and dirt.

Our vinyl railings have a Limited Lifetime Transferable Warranty and even include UV protection, so they're resistant to color fading.

True Customization

Royal Crown Limited railings are made to fit your lifestyle, and to coordinate with our Brock Deck™ and Deck Lok™ Systems – which are created from the same durable material as our railings. We offer a wide variety of railing styles and colors to ensure a good match with the look of your home.

Our patented Rail Lock connection method makes creating sharp angles a snap ... so unique stairway designs are easy to build with our railing systems. Plus, you can customize your outdoor living space even more by wiring speakers and lighting through the rails!
